

BLUETOOTH® WIRELESS TECHNOLOGY GIFT GUIDE

*EMEA 2006
CHRISTMAS EDITION*

Becker Mexico

Retro-Design on the outside, High Tech on the inside

The Retro look revives memories of the Sixties – combined with groundbreaking technology and easy operation. For the Becker Mexico is a complete infotainment system integrating a multitude of comfortable features. Every important function can be operated in a simple and comfortable way through the speech dialog system, selectable from 8 different languages.

The phone module supports Bluetooth® profiles (SIM Access, Handsfree and Object Push). Thanks to the Internet connection via WAP you can access services of your BeckerClub homepage and POIs or download a journey route planned on a PC directly to your vehicle. Alternatively the Mexico reads navigation data from a 2-GB CF card. Also available is an electronic driver's log and an address book for up to 500 entries. Enjoy MP3 sounds from the CF/SD/MM card or listen to your favorite station always tuned to the optimum FM frequency on the 2-RDS tuner. With the optional Remote kit, the Becker Mexico can even comfortably control an iPod®. And the Becker Surround System always generates first-class sound.

For more information please visit: www.becker.de
Suggested retail price: € 1699.-

Becker Cascade

Comfortable handsfree

Bluetooth® connects the Becker Cascade with your mobile phone for your comfortable hands free equipment and to exchange your individual addresses in the directory of the Becker Cascade.

CF-Card (CompactFlash) allows you to navigate cross national in 34 European countries and you can access to more than 1 Mio. points of interests – with quick address access as well as short search/ and access time. Current map data are installed on the 2 GB CF-Card, which is included in the delivery extend. Dynamic route guidance for FM, AM and SW via 2 RDS Tuner. Navigation announcements are available in 14 languages. Destination entry optional by speech dialogue system or by turn/push knobs.

OLED vario colour Display with 15 optional colour schemes. Playback via MP3/CD Player/CF-Card and 2RDS Tuner. Digital sound preparation and 5 band equalizer.

For more information please visit: www.becker.de
Suggested retail price: € 1149.-

Becker Indianapolis Pro

Becker Indianapolis Pro with Bluetooth® wireless technology supports the Bluetooth Handsfree profile, making it a high-grade hands-free unit with excellent speech reproduction through the sound system.

The navigation system unerringly pilots you through 34 European countries. Select your destination through "Logic Speller" and input of postal codes or GEO coordinates. Navigation database with over 1 Mio. points of interest. Speed Limit function. Precise destination guidance through symbol-supported speech instructions in 14 languages. Dynamic route guidance with 2-RDS tuner technology, even with AM, LW and SW.

The CD player supports WMA und every current MP3 format with fixed and variable bit rates. The artist and track names stored in the version 1 or 2 ID3 tag are shown on the display.

Formerly known as the HUB, the Explore H3 Comm (communication) Ent (entertainment) jacket features an iPod® compatible entertainment system that can be controlled by the soft touch remote controls woven into the left hand sleeve. The discreet Bluetooth module stationed in the chest pocket and the microphone in the jackets' collar enables hands free calling. A standard headphone jack is incorporated into the chest pocket and allows the rider to use their own headphones. The Explore H3 Series Comm Ent jacket is only available for men. This jacket benefits from a water column of 15000mm and a breathability of 15000 grs.

Parrot Sound System

Wireless Hi-Fi System

The Parrot Sound system is a new wireless hi-fi concept. Say goodbye to those cables when listening to your favorite tracks: stream by Bluetooth wireless technology to the Parrot speakers.

The Parrot Sound system is a network comprising two speakers. Each speaker contains a built-in digital two-channel Class-D amplifier with a 60W output. The speakers are linked together by Bluetooth wireless technology.

The Parrot Sound system works with all available Bluetooth sources: mobile phones, MP3 players, PDAs and PC's. An RCA line-in input is also available for all non-Bluetooth audio sources, such as CD players, tuners, stereo systems and older computers.

Suggested retail price: 379 €

Parrot Photo Viewer

WIRELESS PHOTO FRAME

Parrot launches a brand new concept to easily view and share digital photos from any Bluetooth camera phone on a LCD photo frame by sending them by Bluetooth wireless technology. The user simply selects a picture on his mobile phone or laptop and sends it via Bluetooth wireless technology. The picture is instantly converted to the size of the screen. If the user changes the frame position (vertical or horizontal), the position of the photo is also automatically adjusted.

Suggested retail price: 119 €

Parrot Driver Headset

BLUETOOTH® HEADSET FOR DRIVERS

Drivers who want the confidence of knowing their Bluetooth headset has full battery capacity when needed, can rest assured with the Parrot Driver headset.

It utilizes a uniquely designed Plug & Play solution that allows your headset to charge in your vehicle's cigarette lighter or accessory plug. The Parrot Driver Headset is intended primarily for in-car use, providing drivers with a reliable solution that is always on, and always fully charged at peak capacity when needed.

To answer a call, the user simply lifts the headset off the cradle, places it on the ear and talks. Unlike most similar devices, the Parrot Driver Headset beeps to alert the user of incoming calls and utilizes Parrot's advanced voice recognition technology.

Parrot 3200 LS-COLOR

COLOR HANDS-FREE BLUETOOTH® CAR KIT

Introducing the first Bluetooth hands-free car kit with a color LCD screen. Contacts are stored in the memory of the Parrot 3200 LS-COLOR. The voice recognition feature enables numbers to be dialed automatically by stating the contact's name. If photos are stored with phone contacts, they can be displayed on the screen. The kit can be personalized by selecting one of the hifi ringtones and color wallpapers available.

The new Parrot universal mute cable comes with an additional adapter for any car brand. Please visit our web site for car models details. An added bonus is the new Parrot control module which can be updated without removing it.

For more information please visit: <http://www.parrot.biz/uk/>

Suggested retail price: 189 €

Parrot 3400 LS-GPS

COLOR HANDS-FREE BLUETOOTH® KIT WITH INTEGRATED GPS ANTENNA

If you own a smartphone or a PDA with navigation software, the Parrot 3400LS-GPS kit is made for you. It combines, for the first time, a unique device, a Bluetooth hands-free kit with a color screen and a GPS antenna. The Parrot 3400 LS – GPS kit permanently sends the vehicle's position to your Smartphone or PDA.

Due to automatic synchronization with your Bluetooth phone, a large color screen displays your phonebook as well as photos of your correspondent (if existing) when receiving in-coming calls. And still with voice recognition to facilitate your calls!

The new Parrot universal mute cable comes with an additional adapter for any car brand. Please visit our web site for car models details. An added bonus is the new Parrot control module which can be updated without removing it.

Parrot Rhythm n' Blue

CD/MP3/BLUETOOTH® CAR RECEIVER

With the Parrot RHYTHM N'BLUE, drivers can listen to CDs, radio, their own MP3 recording on cd and make and receive phone calls. Thanks to its superb design and backlit buttons, the use of these features quickly becomes second nature. The keypad controls phone dialing and messaging functions, and provides preset radio station selection.

Synchronizing your phonebook with the car stereo memory allows for easy access to your contacts. When an incoming call is received, the caller's name is displayed. Numbers may be dialed manually or hands-free using the voice recognition feature.

The Parrot RHYTHM N'BLUE is quick and easy to install thanks to its standard ISO connectors. The unit fits seamlessly into the instrument panel.

Suggested retail price: 279 €

Parrot Minikit

COMPACT AND PORTABLE BLUETOOTH HANDS_FREE ® KIT

The Parrot MINIKIT is a Bluetooth hands-free kit. It features the very latest generation of DSP-2 signal processing algorithms and a high-definition 2W speaker for crystal clear conversations in any situation. It attaches to the car's sun visor and can easily be slipped into your pocket thanks to its small size and lightweight design - a mere 104g. It has its own battery, offering 10 hours' talk time and over a week on standby.

The Parrot MINIKIT is designed to simplify your calls via the user-defined voiceprints (max.150/phone). It uses its own, not the phone's, voice recognition feature, thereby avoiding any need to handle the phone whilst in the car for greater safety at the wheel.

For more information please visit: <http://www.parrot.biz/uk/>

Suggested retail price: 89 €

Parrot MK6000

BLUETOOTH® HANDS-FREE KIT WITH AUDIO STREAMING

The Parrot MK6000 is the first professionally installed Bluetooth hands-free kit dedicated to music. It combines the very latest generation of signal processing with the capability of playing MP3 music files via Bluetooth.

The Parrot MK6000 captures the music sent by your Bluetooth stereo mobile phone or MP3 player and redirects it to the vehicle's speakers which mute automatically so your own music comes through loud and clear.

The Parrot MK6000 automatically synchronizes its phonebook with the contacts on your mobile phone. To call a contact, go to the phonebook and listen to the Parrot kit read out your contacts' names! Confirm your choice and start talking.

Sony Ericsson *Bluetooth*[®] Watch MBW-100

Sony Ericsson *Bluetooth*[®] Watch MBW-100

Give yourself full control over calls and phone-based music – through your watch. Linked wirelessly to your Sony Ericsson *Bluetooth*[™] mobile phone, this classically designed analog watch allows you to see who is calling through a small yet clear OLED display. You can then reject or mute the call with a discrete key press or take the call through your phone or hands-free solution, such as a *Bluetooth* headset. The MBW-100 also allows you to control your phone's music player: play, pause or skip to the next track. A vibrating alert will tell you when you are out of range, so there is no risk of forgetting your phone.

- Compatible with a majority of the new Sony Ericsson phones that support *Bluetooth* technology
- *Bluetooth*[®] 2.0
- Auto pairing[™]
- Time indicator: analog and digital from phone
- SMS/MMS message alert
- Battery indicator
- Water resistant up to 30 m
- Battery time: up to seven days normal usage and seven days time keeping only without phone interaction
- Weight: approx. 185 g
